Merchant Marine Certification of Fitness for Entry Level Ratings

Section V - Description of the requirements for Certificate of Fitness

Title 46 of the Code of Federal Regulations (CFR) requires that an applicant for **Entry Level Ratings** valid for service on a seagoing vessel of 200 or more gross register tons (GRT) (domestic tonnage) "Provide a document issued by a qualified medical practitioner attesting to the applicant's medical fitness to perform the functions for which the document is issued". The following is a list of activities the Applicant shall be physically able to perform:

For a vessel to be operated safely, it is essential that the crewmembers be physically fit and free of debilitating illness and injury. The seafaring life is arduous, often hazardous, and the availability of medical assistance or treatment is generally minimal. As the international trend toward smaller crews continues, the ability of each crewmember to perform his or her routine duties and respond to emergencies becomes even more critical.

All mariners should be capable of living and working in cramped spaces, frequently in adverse weather causing violent evolutions such as fire-fighting or launching lifeboats or life rafts. Members of the deck and engine department must be capable of physical labor, climbing, and handling moderate weights (from 30-60 pounds).
