Guide for Administration of Merchant Marine Examinations

(Deck & Engineering Guide)

JUNE 2010
(Revised 8-13-2010)

This Publication provides guidance for NMC evaluators and personnel who actively administer examinations and monitor applicants in the exam room

U.S. Department of
Homeland Security

To: DISTRIBUTION

Subj: GUIDE FOR THE ADMINISTRATION OF MERCHANT MARINE DECK & ENGINE
EXAMINATIONS (*DECK & ENGINEERING GUIDE*) MCP-MA-NMC2-03(01)

Ref: Code of Federal Regulations Title 46, Chapter 1, Subchapter B

PURPOSE. This manual provides guidance for personnel who monitor merchant marine applicants in the exam room of the Regional Examination Centers (REC). National Maritime Center (NMC) evaluators are to use this publication to determine which modules are to be administered for a given endorsement level and what training is acceptable in lieu of an examination module.

ACTION. Commanding officers of units with marine safety responsibilities should bring this manual to the attention of the maritime industry with interests in marine personnel issues and to institutions that offer U.S. Coast Guard approved training. This manual will be distributed by electronic means only. It is available on the World Wide Web at:
http://www.uscg.mil/nmc/training/deck_and_engineering_guide.pdf

DIRECTIVES AFFECTED. The previous edition of the *Deck & Engineering Guide* dated June 2009 is cancelled. This edition combines the *Deck & Engineering Guides* into a single document.

DISCUSSION.

The Examination Structure Sheets (ESS) contained in this manual reference the written examinations for each endorsement and document.

The Coast Guard has developed an electronic distribution system of examination modules to improve examination quality and productivity. This manual reflects these changes and complements the use of the electronic distribution system.

PROCEDURE.

The ESSs contained in this manual are effective June 2010 and the previous *Deck & Engineering Guide*, dated June 2009, is cancelled.

The ESS contains detailed information for each endorsement exam. Consult the ESS for unique directions, presentation order of examination modules and guidance on courses accepted in lieu of an examination module.

PROCUREMENT INFORMATION. Distribution will be provided by electronic means for local reproduction only from the Internet at:
http://www.uscg.mil/nmc/training/deck_and_engineering_guide.pdf Comments can be made to Commanding Officer, National Maritime Center (NMC-2), 100 Forbes Drive, Martinsburg, WV 25404 or by calling (304) 433-3400.

All RECs

INTRODUCTION

In its guidance on the Evaluation of Competence, the Seafarers Training, Certification, and Watchkeeping Code (STCW) states:

“Recognizing the importance of establishing detailed mandatory standards of competence and other mandatory provisions necessary to ensure that all seafarers shall be properly educated and trained, adequately experienced, skilled and competent to perform their duties in a manner which provides for the safety of life and property at sea and the protection of the marine environment.”

For reasons such as these the Coast Guard continues to view its written examinations in addition to the training and practical demonstrations as an essential part of the process in developing the mariner's competency.

This Publication has been designed primarily for the use of NMC evaluators and personnel who are actively engaged in overseeing applicants in the exam room. If you have any questions concerning the deck and engine department examinations or suggestions for improvements to the Exam Structure Sheets or other sections of this manual, please contact:

Mariner Training and Assessment Division (NMC-2)
U.S. Coast Guard National Maritime Center
100 Forbes Drive
Martinsburg, WV 25404

Title 46 Code of Federal Regulations Part 10 instructs the Officer in Charge Marine Inspection (OCMI) to conduct a Professional Examination of applicants for original issues, raises in grade, increases in scope, and renewals of endorsements. The examination follows a determination by the OCMI that the applicant's training, appropriate practical demonstrations, and experience is satisfactory and they are eligible in all other respects. The purpose of this Publication is to help identify the appropriate professional examination for the OCMI's use, and provide guidelines for the uniform administration of the examinations.

If you need further information or assistance with respect to these Exam Structure Sheets, please do not hesitate to call the USCG National Maritime Center at:

INSTRUCTIONS

1. Examination Structure Sheets (ESS):

The contents of each exam incorporating the use of test module(s) and the instructions for its administration are detailed in individual Exam Structure Sheets (ESS). There is an ESS for each officer endorsement and rating endorsement action for which an examination is required. Each examination is made up of one or more modules (tests). All the required modules for a particular officer endorsement and rating endorsement action are shown. An instance where particular modules are not required, further instructions are provided on the individual ESS. Depending on the officer endorsement and rating endorsement for which the applicant is to be examined, modules unique to a particular exam may be combined with generic modules, which are common to several exams. Each module is graded independently unless otherwise indicated.

2. Exam Room Materials:

Exam illustrations will be provided at the back of each exam module booklet. The list of authorized reference materials allowed in the exam room for Deck exams can be found on pages 1-24 to 1-25. 46 CFR Parts 1-199 and 33 CFR Parts 1-199 are the **ONLY** references allowed in the exam room for Engine exams. Examiners at the REC(s) should review the libraries to ensure that these publications, and **ONLY** these publications, are available to the applicant. **Regional Exam Centers (RECs) are responsible for keeping reference materials current.**

Only non-programmable calculators are permitted. Applicants may use calculators, but are not permitted to use preprinted forms during the examinations. All calculators must meet the following standards:

- a) It must not use pre-programmed strips or chips or any other pre-programmed device that may be inserted into the calculator.
- b) It may not be a permanently programmed specialty computer, such as a navigation computer. Computers capable of generating trigonometric functions, logs and antilogs, squares, cubes, and roots thereof, are acceptable provided they meet the other requirements.
- c) Any manually programmable calculator without simple erasure capability is not permitted.
- d) Any printed calculator tape must be turned in at the end of the exam with any scratch paper.

3. Exam Room Procedure:

When an application for examination is submitted, the applicant should be prepared to be examined on all the material applicable to the officer endorsement or rating endorsement for which the application has been made. Examinations may be administered only when all regulatory prerequisites are completed. To allow Exam Room Supervisors to manage their time and resources, it is recommended that applicants be required to make appointments for all exams. Subject to the Exam Room Supervisor's discretion, applicants may start the exam on any day the office is open. A limit of 3½ hours may be provided to each applicant to complete a test module. The examination fee set out in 46 CFR Table 10.219(a) in Sec. 10.219 must be paid before the applicant may take the first examination section.

4. Maritime Academy Testing:

To accommodate the special circumstances involved, the graduating class of State and Federal maritime academies may be examined by the respective Regional Exam Center (REC), at any time after the first semester of the senior year. Forty-five days prior to scheduled testing, the Regional Exam Center administering the exams will select the exams from the appropriate module from the MMLD prod. A request will then be made to the NMC-22, Exam Team, for review and approval of the selected exams prior to printing.

5. Traveling Examination Teams:

When planning the administration of an exam at an offsite location, the Regional Exam Center (REC) and the Traveling Exam Team (TET) may require support from NMC-2. Please ensure that a minimum advance notice of 30 days is provided in writing by e-mail or fax. The POC for Deck Exams is to be the Deck Team Leader, the POC for Engine Exams is to be the Engine Team Leader, with a copy to the Division Chief, NMC-2. Please see additional information at the end of this section (pages 19-23).

6. Duties of the Examiner:

- a. Reviews reference material to ensure that sufficient copies are available, that they are in satisfactory condition, that extraneous markings are removed, and that the material is stowed in an orderly fashion. When necessary, orders new reference material for addition to the library and purges outdated material.
- b. Ensures that consumables are adequate. Orders extra consumables when necessary.
- c. Checks examination room after closing for evidence of cheating and takes appropriate action to identify the cheater if evidence is found.
- d. Ensures that furniture in the exam room is adequate for intended use and in good, safe condition. If not, takes appropriate action to remedy.
- e. Maintains a daily log of the persons tested.
- f. Ensures that modules and completed answer sheets are filed with adequate security.
- g. Prior to test administration, visually confirm the correct format of the test module, including but not limited to margins, printing errors.
- h. Prior to test administration, visually confirm the presence of all required illustrations
- i. Prior to test administration, check the validity of each requested and downloaded module.

7. Exam Administration:

When administering an original examination or a re-examination for any officer endorsement or rating endorsement:

- a) An applicant must complete all exam modules by testing on consecutive days.
- b) An applicant may attempt as many modules as can be completed within the normal working hours of the examination room, provided a minimum of **TWO** modules are completed per day, with approximately 3½ hours allowed for each module.
- c) Administration of modules is to be in the order chosen by the applicant at the time the appointment to test was made. If no order is chosen, then the administration of the exams will be made in the order listed in the ESS.
- d) Where the ESS indicates two Engineering Modules labeled as Part I and Part II, they are to be graded individually and not to be considered as one module.
- e) **All** of the modules comprising an exam must be completed before beginning retakes of any failed modules.
- f) Applicants for any officer or rating endorsement should not be stopped from testing even if they fail one or two modules. This ensures that the applicant will not be penalized if there is any change to the crediting of the score of an examination module through the challenge process or if a correction to an exam content is determined to be necessary.

g) If an applicant for an unlimited officer endorsement fails **three (3)** modules at any time during the examination, the candidate is **NOT** to be permitted to continue testing on any ensuing module for that testing series.

h) A full examination is required in all cases in which an applicant has applied for:

i) a change in tonnage groups: **Tonnage Groups** are defined as:

Any Gross Tons (AGT) = GT 1600 GRT /3000 ITC
500 GRT - 1600 GRT = 1200 – 3000 ITC
NMT 200 GRT = NMT 500 ITC

ii) A raise in grade: **Raise in Grade** is defined as an increase in the level of authority and responsibility associated with an endorsement.

iii) a change in horsepower limitations (Increase in Scope)

iv) Exams required to increase the scope of an Existing officer endorsement are listed on each individual ESS for the specific endorsement action. Courses approved in lieu of modules for the action of increasing scope are not permitted to be used in lieu of exam modules where full exams are required. **Increase in Scope** is defined as a change in horsepower or tonnage limitations, or geographic route restrictions.

v) Approval to Test Letters, (ATT), are valid for one year from the date of issuance. All exam requirements must be met within the period of validity of an applicants ATT letter. Once the ATT letter expires a new application must be made and required fees paid. **Any exam scores from prior exam cycles will NOT be carried over once an ATT letter expires.**

8. Answer Sheets:

To gather statistics on the exam questions, NMC-22 is scanning the graded answer sheets into a database.

- a) All original answer sheets must be mailed to the National Maritime Center monthly or when deemed appropriate by the Regional Exam Centers (RECs).
- b) It is essential that an original Merchant Marine Examination Question Selection/Answer Sheet (CG-5164) be utilized for examinations. Copied or reprinted answer sheets fail to scan properly.
- c) The candidate **must darken** the appropriate spaces for their **social security number, module number** and **test number** at the top of the form as well as their choice of answer for each question.
- d) It is the responsibility of the REC examiner to accept **COMPLETED ANSWER SHEETS ONLY. DO NOT ACCEPT** for grading any CG-5164 whose information block at the top of the form is incomplete. **Do not make any administrative marks in the answer fields.**
- e) Answer Sheets (CG5164) are available from:

USCG Engineering Logistics Center
2401 Hawkins Point Road
Baltimore, Maryland 21226-5000
Phone: 410-576-2561
P.O.C.: Fran Devonish

** Please reference FSN 7530-01-GF2-8420 when making inquiries**

9. Comments and Challenges:

If an applicant believes there is something wrong with a question that prevents it from being answered correctly, they must state in writing all the details regarding the discrepancies on a **Comment-Challenge** sheet.

The applicant **must provide** the reasons for the challenge, all calculations for math problems and what is believed to be the correct answer. All comments, even if they will not affect the candidate's grade, are valuable and will be used to improve the quality of the questions used on future tests.

If an applicant fails the exam module and has submitted comment sheets with the completed answer sheet, each comment regarding a question not receiving credit will then become a *Challenge* for that question.

If the applicant fails the examination module by no more than one question, they will be given the opportunity to review each question for which credit was not given. Immediately after the review and **prior** to leaving the exam room, the candidate may submit a challenge sheet for no more than two questions as indicated above. These two *challenges* are in addition to any *comments* submitted prior to the answer sheet being graded that subsequently change from a *comment* to a *challenge*. Once the applicant has reviewed his or her answer sheet and leaves the exam room for **ANY REASON** before submitting their challenge, the challenges will not be accepted.

Examiners will submit to NMC-22 via fax or e-mail the applicant's **Comment-Challenge** sheet and answer sheet for the exam in question.

10. Appeal Procedure:

IAW 46CFR 1.03-40 Any person directly affected by a decision or action of an officer or employee of the National Maritime Center (NMC) involving any of the marine safety functions listed in §1.01-15(c) of this subpart may, after requesting reconsideration of the decision or action by the NMC, make a formal appeal of that decision or action, via the NMC, to the Director of Prevention Policy, Commandant (CG-54), in accordance with the procedures contained in §1.03-15 of this subpart. The decision of the Director of Prevention Policy, Commandant (CG-54), on such an appeal will constitute final agency action.

With regard to the exam challenge procedure, the challenge is the re-consideration. If a mariner is unsatisfied with the result of their challenge they have the right to appeal the decision as outlined in the above paragraph.

IAW 46CFR 1.03-15(c) When making a formal appeal of a decision or action, as permitted by this subpart, such appeal must be submitted in writing and received by the authority to whom the appeal is required to be made within 30 days after the decision or action being appealed, or within 30 days of the last administrative action required by this subpart. Upon written request and for good cause, the 30 day time limit may be extended by the authority to which the appeal is required to be made.

11. Retest Policy.

- a) If an applicant for an **upper level officer endorsement** as defined in 46 CFR 10.107 fails three or more sections, a complete re-examination must be administered. On the subsequent exam, if the applicant again fails three or more sections, at least **3 months** must lapse before another complete examination is attempted, and a new examination fee is required. If an applicant fails one or two sections of an examination, the applicant may be retested twice as is necessary on each failed section during the next 3 months. If the applicant does not successfully complete each failed section within the **three (3)** month period, a complete examination must be administered after a lapse of at least three (3) months from the date of the last retest, and a new examination fee is required. The 3 month retest period may be extended by the OCMI if the applicant presents discharges documenting sea time which prevented the taking of a retest during the 3 month period. The retest period may not be extended beyond 7 months from the initial examination (46 CFR 11.217(a)(1)).

- b) The scheduling of examinations for lower level officer endorsement as defined in 46 CFR 10.107 will be at the discretion of the OCMI. In the event of a failure, the applicant may be retested twice whenever the examination can be rescheduled with the OCMI. The applicant must be examined in all of the unsatisfactory sections of the preceding examination. If the applicant does not successfully complete all parts of the examination during a 3-month period from the initial test date, a complete reexamination must be taken after a lapse of at least 2 months from the date of the last retest, and a new examination fee is required (46 CFR 11.217(a)(2)).
- c) Upon application for a rating endorsement, any required examination will be given as soon as practicable. An applicant for a rating endorsement who has been duly examined and refused a certificate by the Coast Guard may come before the Coast Guard for reexamination at any time after the date of the initial examination. The Coast Guard sets the time of reexamination based on the applicant's performance on the initial examination. However, the maximum waiting period after the initial failure will be 30 days, and the maximum waiting period after a second or subsequent failure will be 90 days. An applicant who has been examined and refused a certificate by the Coast Guard may not again make application for examination until 30 days after the applicant's last failure of an examination or reexamination (46 CFR 12.02-17).
- d) Applicants failing several portions of an examination or those failing one module with an extremely low score should be encouraged to study before attempting a reexamination.
- e) Retest exam modules are required to be separate and different than the original or previous test modules.

12. Coordination:

When situations arise that require a departure from these instructions please request guidance from the National Maritime Center (NMC-2) in writing (e-mail is acceptable). State the officer endorsement or rating endorsement for which application has been made, and why the applicant's circumstances are different from the norm. NMC will respond in writing to all Regional Exam Centers (RECs). In a spirit of fairness and in order to foster good customer relations, all applicants are to be treated the same, regardless of where the applicant is being served.

13. Multiple Ratings:

When a candidate requires testing for multiple ratings, the following method for assigning modules will be employed:

- a) Compare all modules from each of the applicable ESS
- b) Modules duplicated only need to be administered once
- c) All other modules for both ratings are required

14. Oral Assisted Examinations:

IAW 46 CFR 11.205(f)(i). Any applicant for a deck or engineering endorsement limited to vessels not exceeding 500 gross tons, or an endorsement limited to un-inspected fishing industry vessels, may request an oral-assisted examination in lieu of any written or other textual examination. If there are textual questions that the applicant has difficulty reading and understanding, the OCMI will offer the oral-assisted exam. Each endorsement based on an oral-assisted examination is limited to the specific route and type of vessel upon which the applicant obtained the majority of service.

IAW 46 CFR 12.15-9(a)(c). Each applicant for certification as a qualified member of the engine department (QMED) in the rating of oiler, watertender, fireman, deck engineer, refrigeration engineer, junior engineer, electrician, or machinist shall be examined orally or by other means and only in the English language on the subjects listed in 46 CFR 12.15-9(b). The applicants' general knowledge of the subjects must be sufficient to satisfy the examiner that he/she is qualified to perform the duties of the rating for which he/she makes application. Please see additional information at the end of this section (Page 1-18).

15. Renewal Exams:

In accordance with 46 CFR 10.227 : Renewal exams are required only if applicant does not have the required sea service for renewal, does not have closely related shore side experience, or has not taken an approved refresher course. **Deck officer endorsements renewing with closely related shore side experience service must complete a Rules of the Road Examination (see 46 CFR 10.227(i)(D)).** Renewal Modules are take home exams issued to the mariner by the Regional Exam Centers. It is recommended that completed exams be returned to the Regional Exam Center for grading within thirty days in order to assure the exam cycle, including retakes, is completed within ninety days.

In accordance with 46 CFR 10.227 (e) : Applicants for renewal who do not meet the sea service or exam requirements May be issued a Document of Continuity. Documents of continuity do not expire and are issued solely to maintain an individual's eligibility for renewal. A document of continuity does not entitle an individual to serve as a merchant mariner. A holder of a document of continuity may obtain a properly endorsed, valid MMC at any time by satisfying the requirements for renewal.

A sample copy of the Renewal Exam Letter issued by the Regional Exam Center is provided on page 1-26 of this manual.

16. Custody and Security

Compromise of an examination module causes the removal of that module from service and requires that a replacement be generated. To reduce the possibility of compromise, standard security procedures must be instituted at each Regional Exam Center (REC). It is essential that proper security procedures be conscientiously executed by all involved parties. The following procedures should be followed:

- a) Examination Log: A log of all applicants shall be maintained.
- b) Compromises: A compromise occurs when the possibility exists that the contents of a module have been exposed to unauthorized personnel. If this situation occurs, notify the Exam Administration Branch, NMC-2, at the National Maritime Center. Advise the NMC-2 staff of the situation and the probability of actual exposure to unauthorized personnel.
- c) Stowage: Properly stow any printed modules in a lockable container such as a safe or file cabinet. At the close of the workday, account for any and all printed modules.
- d) Destruction of Examination Materials: Applicants shall return to the examiner all exam booklets, scrap paper, charts and other work materials used during the examination process. This material should be destroyed, following any pending challenges have been made, in a manner that results in an unusable format.
- e) Receipt of Printed Modules: Upon receipt of printed modules for special situations such as supplying a Traveling Exam Team (TET), an inventory of the shipment shall be taken and compared with the forwarding letter. Any deficiencies, such as damage, evidence of tampering, etc. shall be reported to the Exam Administration Branch, NMC-2, at the National Maritime Center.

RULES OF THE EXAMINATION ROOM

1. The normal work hours for this REC are ____ to _____. The exam room will be opened from ____ to _____.
2. Handbags, briefcases, pagers, cellular phones, books, notes, etc. are not allowed in the Exam Room. The applicant is to provide their own plotting equipment. Programmable calculators are not allowed in the exam room. During the examination, the applicant may not refer to any material other than that specifically authorized by the United States Coast Guard.
3. Any applicant engaged in any form of cheating during the exam, such as, referring to concealed notes, communicating with or copying work from other applicants, removing written material from the exam room, or any other dishonest practice, will be dismissed from the exam room and will be considered to have failed the entire exam. A re-exam will not be permitted for six months. Those applicants already holding a Merchant Mariner's Document or Coast Guard endorsement may be summoned to appear before an Administrative Law Judge where their endorsement may be suspended, or revoked, or other penalties assessed.
4. Applicants are not permitted to leave the exam room before a module is completed. Head (restroom) calls are not normally permitted. However, if required, the applicant shall be escorted to insure that no attempt is made to access additional information related to the exam. See Item #3. Upon completion of a module, all reference publications must be returned to their proper location in the exam room. The answer sheet and scratch paper is to be placed inside of the front cover of the booklet and given to the Examiner.
5. Eating and drinking is not permitted in the exam room.
6. Administration of modules is in the order chosen by the applicant at the time the appointment to test was made or before the first module is administered. If no order was chosen, then the administration of the modules will be made in the order listed in the ESS. An applicant may attempt as many modules as can be completed within the normal working hours of the examination room, provided a minimum of two modules are completed per day, with 3½ hours allowed for each module. **All modules must be completed on consecutive days within the same week.**
7. Once a module has been started, the applicant is obligated to complete it. If an answer sheet is submitted with unanswered questions, these questions will be considered to have been answered incorrectly, which may result in a failing score.
8. Do not write or mark in the test booklets or any reference material. If you notice any marks in a test booklet or in any reference material, please notify the Examiner.
9. The applicant must darken the appropriate spaces for their **social security number, module number** and **test number** at the top of the answer sheet form (CG-5164). The Examiner **WILL NOT ACCEPT** for grading, any answer sheet whose information block at the top of the form is incomplete.
10. If you feel a question is faulty, unclear, or has no correct answer indicated, choose the best answer, mark the answer sheet accordingly, and complete a **COMMENT-CHALLENGE SHEET** provided by the Examiner. Explain as clearly as possible the specific concern or objection to the question. If the applicant feels there is a better answer, he/she must **show** how they arrived at your answer including all **computations** for navigation and other mathematical problems. **An answer must be indicated on the answer sheet.** Once the applicant has reviewed the answer sheet and leaves the exam room for **ANY REASON** before submitting their challenge, the challenge will not be accepted.
11. The Examiner is always available to assist the applicant. However, the Examiner cannot discuss question content with the applicant. See Item 10.

I have read and understand the rules as stated above. I also understand that I MUST complete the entire exam, including retests if required, WITHIN 90 DAYS of the beginning of the exam cycle.

COMMENT - CHALLENGE SHEET

(For Coast Guard use only) _____ COMMENT _____ CHALLENGE

APPLICANT'S NAME _____

MODULE NAME _____

MODULE NUMBER: ___/___/___/___/___ - ___/___/___/___ QUESTION NUMBER: _____

If you believe there is something wrong with a question that prevents it being answered correctly, i.e., no correct answer, or that you believe there is more than one correct answer shown, or the question is poorly worded, etc, please give all the details below. **Include** your reasons and **all calculations** for math problems such as pump capacity, navigation, stability, or cargo. **Provide** what you believe to be **the correct answer**. Even if your comments will not affect your grade, they are considered very valuable and will be used to improve the quality of the questions used on future tests. If you fail this exam and submit your comments with your completed answer sheet, for each comment sheet for a question you did not receive credit will then become a challenge for that question. Further, if you fail the examination module by no more than one question, you will be given the opportunity to review each question for which credit was not given. Immediately after the review and **prior** to leaving the exam room, you may submit a challenge sheet for no more than two questions as indicated above. These two *challenges* are in addition to any *comments* submitted prior to the answer sheet being graded that subsequently change from a *comment* to a *challenge*. Once you have reviewed your answer sheet and leave the exam room for **ANY REASON** before submitting a challenge, the challenges will not be accepted.

SIGNATURE: _____ DATE: _____

DUTIES OF AN EXAMINER

The examiner will verify the order of modules either at the time the appointment to test has been made or prior to when the first module is administered. At the appropriate time, the examiner selects the modules from MMLD PROD and downloads the appropriate modules AND answer keys in preparation for the applicant's examination. Only the module(s) being presented to the applicant for testing that day are to be downloaded and printed. No modules are to be downloaded, printed and stored for a period of more than 24 hours prior to test administration, (unless to facilitate off-site testing).

On the appointed morning after the appropriate exam fees are paid, the examiner identifies the applicant, reviews with the applicant the test procedures, reference material that may be available, and the operating procedures and rules of conduct during the exam. The applicant is given the initial module, a blank answer sheet with complete instructions for completion of required fields and instructions specific to the particular test module. After the applicant completes the module and submits the answer sheet, the examiner is to perform an initial review to ensure that it is completed correctly. The applicant may then be given another test module if time permits and the applicant desires, or further testing may be deferred until the afternoon session or the following morning.

The answer sheet is scored, the applicant informed of the results, and the results entered on the appropriate record. If the applicant has failed the module by no more than one question, the examiner will allow a review of the module and submission of a challenge by the applicant. If the applicant desires to submit a challenge, they cannot leave the examination room until the challenge process is completed. No outside references may be utilized by the applicant for the purpose of substantiating a challenge. If a challenge is submitted, the examiner faxes it to the National Maritime Center for review. Upon receipt of the results of the review, the applicant is advised. These procedures continue until the applicant has completed all modules that are part of the examination.

During the actual testing, the examiner oversees the exam room to preclude cheating, answers procedural questions, and provides information if the applicant desires to comment on a question. If cheating is detected, the examiner takes steps to bar the applicant from further testing for six months. At the end of the workday, **the examiner accounts for all modules used; destroys used modules, scrap paper, and used charts; and prepares for the next day of testing.**

After the final module is completed, examiner will make entries into MMLD and send email to NMC-5 evaluator for endorsement issuance. If the applicant failed the examination, the applicant is advised of the next steps in the testing process and another examination date is scheduled if the applicant remains eligible.

EXAMINER CHECKLIST

1. The examiner downloads the appropriate test modules **AND** answer keys from MMLD PROD in preparation for the applicant's examination. Check exam for the correct number of illustrations and format. Notify the NMC Exam Team of any discrepancies.
2. Review reference material to ensure that sufficient copies are available.
3. Ensure that consumables (answer sheets, scrap paper, pencils) are adequate.
4. Ensures that furniture in the exam room is adequate for intended use and in good, safe condition. If not, takes appropriate action to remedy.
5. Ensure that the applicant has read and signed a copy of "Rules of the Examination Room".
6. Ensure that the applicant has darkened the appropriate spaces for their social security number, module number and test number at the top of the form as well as their choice of answer for each question.
7. Any Comment-Challenge submitted to NMC-2 must include a copy of the applicant's graded answer sheet.
8. Upon completion of testing, the examiner accounts for all modules used. Destroy used modules, scrap paper, and used charts promptly.
9. Upon completion of each module, examiner will enter score into MMLD.
10. After the final module is completed, examiner will make entry into MMLD and notify NMC-5 evaluator for endorsement issuance
11. Checks examination room after closing for evidence of cheating and takes appropriate action to identify the cheater if evidence is found.

Orally Assisted Examinations

Orally assisted examinations are permitted by 46 CFR 11.205(i) ¹. Applicants should attempt the standard written examination initially. If they demonstrate difficulty in reading, they may test with an orally assisted examination. This is a time consuming process. Encourage applicants to test with the standard modules and advise them of the limitations to be placed on the endorsement. **Only the OCMI/REC is authorized to administer an orally assisted examination.** The following procedures shall be followed in administering an orally assisted examination:

- a. Standard Modules. Candidates will normally be tested with standard examination modules unless a locally prepared module is appropriate.
- b. Reading of Questions. The examiner shall read the questions to the applicant exactly as they are printed in the module. Read the questions in a normal tone of voice with the proper inflections as indicated by normal usage of the English language. When reading the four possible answers, read each one with the same tone. Do not stress or give any other indication of the correct answer. Questions may be repeated once to ensure understanding by the applicant. Do not discuss the content or meaning of either the questions or the possible answers.
- c. Recording of Answers. Record the answers on a standard answer sheet. If standard modules are used to test the applicant, a notation to this effect shall be enclosed in the applicant's file. If locally prepared modules are used, the subjects included in the test must be listed in the file as indicated in 46 CFR 10.205(i).
- d. Renewal of Endorsements. Endorsements issued as a result of an orally-assisted examination may be renewed through an oral-assisted renewal exercise.

¹ 46 CFR 11.205 (f)(1)(i): “Any applicant for a deck or engineer officer endorsement limited to vessels not exceeding 500 GRT, or an officer endorsement limited to uninspected fishing-industry vessels, may request an oral-assisted examination in lieu of any written or other textual examination. If there are textual questions that the applicant has difficulty reading and understanding, the OCMI will offer the oral-assisted examination. Each officer endorsement based on an oral-assisted examination is limited to the specific route and type of vessel upon which the applicant obtained the majority of service.”

TRAVELING EXAMINATION TEAMS

Since the mid-1980's the Coast Guard has employed the use of Traveling Examination Teams (TETs) in an effort to provide qualified mariners, located in regions of considerable distance from an REC, the ability to take required examinations without having to travel. This longstanding practice continues today and outlined below are the steps necessary to request a TET:

1) A TET is appropriate whenever a group of at least 20 applicants in one remote area have been determined to be fully qualified for examination, e.g. *'Approved to Test'*. A remote area is one that that is more than **150 miles** from the nearest REC.

2) Submit a written TET request to:

*Commanding Officer
United States Coast Guard
National Maritime Center (NMC-11)
100 Forbes Drive
Martinsburg, WV 25404
Attn: TET Request*

Or

D05-DG-NMCTETRequest@uscg.mil

- 3) All TET requests must be received at least twenty (20) days prior to the requested examination date and shall include a complete list of qualified applicants (first name, middle name, last name and mariner reference number).
- 4) All TET requests shall also include signed Letter of Undertaking (LOU). See Figure 2 sample LOU. Title 46 United States Code 7504 authorizes the reimbursement of Coast Guard expenses incurred in conducting credentialing services at a location other than an REC. Accordingly, before services can be scheduled this office must be assured that the Coast Guard will be reimbursed for the expenses incurred e.g. *travel and subsistence expenses*.
- 5) Additional TET trips (including foreign TET trips) may be scheduled at the discretion of the Officer in Charge, Marine Inspection (OCMI).
- 6) Except for trips made to the schools receiving federal aid under 46 CFR Part 310 for the examination of students as required by 46 CFR 310.3(b)(2), or those examined at the U.S. Merchant Marine Academy, all TET trips will be conducted on a reimbursable basis.
- 7) The following procedures will apply to all TET trips:
- a) Travel Order Number (TONO). When a TET trip is warranted, RECs shall forward a request for a TONO(s) and accounting data to NMC-3. This request should be made by E-Mail or telefax. If the TET trip is approved, a TONO(s) will be issued by NMC-3.

b) Letter of Undertaking (LOU). A single billing source must be provided for each group of applicants. This source may be an individual, organization, or company who agrees to reimburse the Coast Guard. This individual, organization, or company shall submit a LOU that must be received by the REC before the commencement of any travel.

c) Travel Log. A travel log shall be maintained for each TET trip. If two or more groups are tested on the same trip, the completed log must reflect how the total chargeable expenses should be prorated among the groups (See Figure 3). Travel logs should be retained at the REC.

8) **Billing:** To facilitate billing for the TET trip, the following material shall be submitted to NMC-3 upon completion of the trip:

a) Letter(s) of undertaking;

b) Copy of travel orders (CG-4251);

c) Copy of travel voucher or sub voucher (DD 1351-2); and

d) Copy of travel summary of expenses from HRSIC

9) **Acceptance of In-Kind Travel and Travel-Related Expenses:** The acceptance of company or applicant supplied meals, transportation, or lodging is prohibited, unless no other arrangements (e.g., for reimbursement in accordance with 46 U.S.C. 7504 and the procedures set forth in paragraph 6.D. of this Volume) can be made; and the acceptance of such expenses complies with the requirements of the Standards of Ethical Conduct for Employees of the Executive Branch, 5 CFR 2635. If it is necessary to accept in-kind and travel-related expenses, prior approval shall be obtained from NMC-3. Remember that the examination procedure is the only means available to the Coast Guard for determining an applicant's professional competence. Thus, the same vigilance used in the REC examination room must be maintained in external relationships with those requesting TET assistance.

FIGURE 1: SAMPLE RESPONSE TO TET REQUEST

16721

Dear Sir:

Title 46 United States Code 7504 authorizes the reimbursement of Coast Guard expenses incurred in conducting licensing and/or seaman documentation services at a location other than at the Regional Examination Center. That reimbursement is limited to travel and subsistence expenses.

Accordingly, before the service you have requested in your (letter) (telephone call) of _____ can be scheduled, this office must be assured that the Coast Guard will be reimbursed for the expenses incurred. This assurance may be provided by completing and signing the enclosed Letter of Undertaking and returning it to this office. The letter also certifies that you will provide adequate testing facilities for the requested service.

The following conditions must normally be met before a TET will be authorized:

1. There are at least 20 applicants whose applications have been evaluated and found to be qualified.
2. A TET trip will normally be provided only for locations in excess of 150 miles from this office or another TET site.
3. The completed application and supporting documents for each individual must be received by this office at least ten working days prior to the anticipated testing date.
4. Only individuals with previously approved applications will be examined.

Sincerely,

Encl: (1) Letter of Undertaking

RENEWAL OPEN-BOOK EXAM(S)

Mariner's Last Name:

Mariner#:

This letter is in response to your application for renewal of your Merchant Mariner Credential. To fulfill your professional requirements for renewal of your credential you must complete the enclosed open-book renewal exercise(s). Enclosed you will find the following modules:

You may use any reference material to complete the examination. A grade of **90%** is required to pass each module. **Answer sheet(s) and examinations must be returned to the Regional Examination Center.**

Once you receive your examinations, you have a total of three (3) months from the date of this letter to complete the exam cycle (this includes 2nd and 3rd attempts).

Retest Policy.

- a) If after your first attempt, you do not receive a passing score (90%) you will be sent a new examination(s) for a re-test, (provided you are still within the three (3) month test cycle). If you do not receive a passing score on your second attempt, you will receive a third and final examination(s), (provided you are still within the three (3) month test cycle).
- b) For **unlimited endorsements** if you do not successfully complete all parts of the examination during the three (3) month period from the date the open book exam was sent, a complete re-examination must be taken no sooner than (3) months from the date of the last retest, and a **new examination fee** is required. *Reference 46CFR 11.21.* Payment can be made at www.pay.gov.com; select agency list; United States Coast Guard; Merchant Mariner User Fee Payment - submit a copy of the receipt to the Regional Exam Center.
- c) All **other examinations** if you do not successfully complete all parts of the examination during a (3) month period from the date open book exam sent, a complete reexamination must be taken no sooner than (2) months from the date of the last retest, and a **new examination fee** is required. *Reference 46 CFR 11.217.* Payment can be made at www.pay.gov.com; select agency list; United States Coast Guard; Merchant Mariner User Fee Payment - submit a copy of the receipt to the Regional Exam Center.
- d) All testing including retesting must be completed within the original National Maritime Center approval period of 1 year, the above applies to the administration of the exams and does not reduce or extend the original 1 year approval period.

If you have any questions, please feel free to contact the NMC at 1(888) 427-5662.

<u>Oiler, Limited, Motor Vessels</u>	<u>35</u>
<u>Renewal - Endorsement Rating</u>	<u>35</u>

SECTION 5

<u>Reference Material</u>	<u>36</u>
---------------------------	-----------

General Instructions for the Administration of Engineering Exams

1. The Engine Guide is divided into five sections, according to the engineering level for which an applicant will be examined. Each section contains an introduction and the examination structure sheets for administering all engineering exams and required subjects. The sections for the unlimited and limited engineering officer endorsement examinations also contain an index to the examinations within the section and a quick reference table.
2. This introduction lists general policy applicable to all engineering examinations in each section.
3. The quick reference sheet shows at a glance the number of modules required for each examination and provides a quick comparison of the total number of modules required to test an applicant at each endorsement level.
4. A module code is a five-digit number that specifically identifies an examination module. The *first* digit specifies the endorsement area of the exam; e.g., 5XXXX, upper level endorsements; 6XXXX, lower level endorsements; and 8XXXX, QMED ratings. The *second* digit specifies the level of the exam, such as 50XXX, upper level, chief engineer, unlimited horsepower. The *third* digit specifies the examination subject area, such as 504XX, upper level, chief engineer, unlimited horsepower, electricity. The fourth (4) digit is used to indicate the year in which the module is generated, i.e., 50451 indicates a module generated in the year 2005. The fifth (5) digit represents the version generated in that year, such as modules 50451₁ and 50451₂, whereas 1 and 2 are the respective version numbers. Different versions of the test are used to vary the distribution of questions selected from the subject areas included in a typical module and the use of different versions is encouraged.
5. Each section provides all the examination structure sheets within the specific section of the Engineering Guide and the numbered, applicable examination structure sheets for a particular examination.
6. The order in which the examination structure sheets are presented represent a progression of the unlimited engineer endorsements beginning with the third assistant engineer (53XXX), then second assistant engineer (52XXX), then first assistant engineer (51XXX), and ending with chief engineer (50XXX).
7. The applicable examination structure sheet contains the specific policy that applies to a particular endorsement examination and/or its assessment process.

SUMMARY OF EXAMINATION MODULE CODES

SECTION ONE - UNLIMITED ENGINEERING OFFICER ENDORSEMENTS

<u>MODULE CODE</u>	<u>MODULE NAME</u>
50XXX	Unlimited Chief Engineer
51XXX	Unlimited First Assistant Engineer (Second Engineering Officer)
52XXX	Unlimited Second Assistant Engineer
53XXX	Unlimited Third Assistant Engineer (OICEW)
54XXX	Unlimited Chief / First Assistant Engineer, Endorsement
55XXX	Unlimited Engineering Endorsements, Renewal Exercise

SECTION TWO - LIMITED ENGINEERING OFFICER ENDORSEMENTS

<u>MODULE CODE</u>	<u>MODULE NAME</u>
60XXX	Chief Engineer, Limited
61XXX	Assistant Engineer, Limited / DDE Unlimited
617XX	Limited Engineering Endorsements, Renewal Exercise
65XXX	Chief Engineer, Un-Inspected Fishing Vessel
66XXX	Assistant Engineer, Un-Inspected Fishing Vessel
69XXX	Designated Duty Engineer, 1000/4000 Horsepower
70XXX	Chief Engineer (OSV)
71XXX	Engineer (OSV)

SECTION THREE - MODU ENGINEERING OFFICER ENDORSEMENTS

<u>MODULE CODE</u>	<u>MODULE NAME</u>
62XXX	Chief Engineer, (MODU)
63XXX	Assistant Engineer, (MODU)
64XXX	Limited Engineering (MODU), Renewal Exercise

SECTION FOUR - ENGINE RATINGS ENDORSEMENT

<u>MODULE CODE</u>	<u>MODULE NAME</u>
810XX	Junior Engineer
820XX	Deck Engineer
830XX	Electrician
840XX	Refrigeration Engineer
850XX	Machinist
860XX	Fireman / Watertender
870XX	Oiler, Steam and Motor
880XX	Pumpman
890XX	Oiler, Motor Vessels
900XX	QMED Renewal Exercise

Chapter 2 - Section 1

Unlimited Engineering Officer **Endorsements**

THIRD ASSISTANT ENGINEER (OICEW)
SECOND ASSISTANT ENGINEER
FIRST ASSISTANT ENGINEER (SECOND ENGINEERING OFFICER)
CHIEF ENGINEER

ADMINISTRATION OF UPPER LEVEL OFFICER ENDORSEMENT - ENGINEERING EXAMS

Scheduling Exam Time Limits and Grading Policy

A time limit of 3½ hours may be provided to each applicant to complete a test module except as necessary to accommodate the working hours of the examination room. Applicants starting to test in the morning, at the opening of the exam room, should be able to complete a minimum of two modules that day when two or more modules in an examination are to be administered. If they desire, and time permits, they may complete more than two modules. Applicants starting a module late in the afternoon should be advised that it must be completed by the normal closing time; unanswered questions will be graded as wrong answers. An applicant for an upper level endorsement must complete the entire exam on consecutive days. To eliminate confusion the modules should be administered in the published order. A minimum score of 70% is required to pass each module, except for the renewal exercise module, which requires a 90% to pass. All modules for engineers should be graded individually.

Examination Cycles

Subject to the requirements of paragraph 1, the examination cycle may begin on any day, and at anytime during the day as designated by the REC.

Reference Material

Engineering exam illustrations will be provided at the back of each exam module booklet. With the exception of providing the regulations, 46 CFR Parts 1-199 and 33 CFR Parts 1-199, no other reference materials are permitted except for the open book renewal exercise. Only non-programmable calculators are permitted.

Increasing the Scope of Propulsion Mode for Chief, First, Second and Third Assistant Engineers

Applicants wishing to increase the scope of their propulsion mode to STEAM and/or MOTOR are required to be tested with specific modules in the new propulsion area. The complete list of required modules is defined for Third Assistant Engineer in ESS 1-1 thru 1-5, for Second Assistant Engineer in ESS 1-6 thru 1-9, for First Assistant Engineer in ESS 1-10 thru 1-13 and for Chief Engineer in ESS 1-14 thru 1-17.

Limited Chief Engineer Cross Over to Unlimited Third or Second Assistant Engineer

A Chief Engineer - Limited (Near Coastal) desiring to crossover to Third Assistant Engineer - Unlimited (Motor) is to be tested on all Third Assistant (Motor) modules regardless of the issuing date of their Chief Engineer - Limited endorsement. A Chief Engineer - Limited (Oceans) desiring to crossover to Second Assistant Engineer - Unlimited (Motor) is to be tested on all Second Assistant engine modules regardless of the issuing date of their limited Chief Engineer endorsement. These candidates must also satisfy the requirements of STCW, including documentation of the successful completion of all practical demonstrations. (46 CFR 10.514, 10.516)

Renewal Exercise

The endorsement renewal exercises for Chief, First, Second, and Third Assistant Engineers are consolidated into one open book exercise for each propulsion mode being renewed.

Questions

Any questions regarding engineering endorsement or document examinations should be referred to the National Maritime Center, Examination Administration Branch, Engineering Team, at (304) 433-3711.

EXAMINATION STRUCTURE SHEETS INDEX

Upper Level Engineering Officer Endorsements¹

Operational Level

<u>Exam Title</u>	<u>Exam Structure Sheet (ESS)</u>
Original	
Third Assistant Engineer (OICEW), Motor	ESS: 1-1
Third Assistant Engineer (OICEW), Steam	ESS: 1-2
Third Assistant Engineer (OICEW), Steam and Motor	ESS: 1-3
Third Assistant Engineer (OICEW), Gas Turbine	ESS: 1-4
Increase in Scope	
Third Assistant Engineer (OICEW), Steam, Motor, or Gas Turbine	ESS: 1-5
Raise in Grade	
Second Assistant Engineer, Motor	ESS: 1-6
Second Assistant Engineer, Steam	ESS: 1-7
Second Assistant Engineer, Steam and Motor	ESS: 1-8
Increase in Scope	
Second Assistant Engineer, Steam, Motor, or Gas Turbine	ESS: 1-9

Management Level

Raise in Grade	
First Assistant Engineer (Second Engineering Officer), Motor	ESS: 1-10
First Assistant Engineer (Second Engineering Officer), Steam	ESS: 1-11
First Assistant Engineer (Second Engineering Officer), Steam and Motor	ESS: 1-12
Increase in Scope	
First Assistant Engineer (Second Engineering Officer), Steam, Motor, or Gas Turbine	ESS: 1-13
Raise in Grade	
Chief Engineer, Motor	ESS: 1-14
Chief Engineer, Steam	ESS: 1-15
Chief Engineer, Steam and Motor	ESS: 1-16
Increase in Scope	
Chief Engineer, Steam, Motor, or Gas Turbine	ESS: 1-17

Operational & Management Level

Renewal	
Unlimited Engineering, Motor	ESS: 1-18
Unlimited Engineering, Steam	ESS: 1-19

¹ Any Gas Turbine Propulsion endorsement to a Steam and/or Motor upper level endorsement may be added only after the applicant has provided evidence of successful completion of an approved Gas Turbine Training course at the level of the requested endorsement and the appropriate sea service has been documented (as per NVIC 02-01).

Limited Engineering Officer **Endorsements**

ENGINEER (OSV)
CHIEF ENGINEER (OSV)
CHIEF ENGINEER, UFIV
ASSISTANT ENGINEER, UFIV
CHIEF ENGINEER (LIMITED)
DESIGNATED DUTY ENGINEER
ASSISTANT ENGINEER (LIMITED)

ADMINISTRATION OF LIMITED ENGINEERING OFFICER EXAMS

OVERVIEW

The written examination is the final step or capstone in the process for attaining an engineering officer endorsement. All other U. S. Regulatory or STCW requirements must be completed prior to the candidate being examined. Only the motor propulsion mode for limited officer endorsement examinations will be made available to the REC's. The **steam propulsion** mode for limited power/tonnage engineering Endorsements is not considered viable due to the small number of these vessels. **An engineer desiring to have their officer's endorsement endorsed for steam plants of limited power/limited tonnage must first hold a comparable motor officer endorsement and complete a training program established for the operation of a limited horsepower steam plant to obtain this endorsement (see also 46 CFR 11.502(b)).**

TIME OF EXAMINATION AND GRADING POLICY

A time limit of 3.½ hours may be provided to each applicant to complete a test module except as necessary to accommodate the working hours of the examination room. Applicants starting to test in the morning, at the opening of the exam room, must complete a minimum of two modules that day when two or more modules in an exam series are to be administered. If time permits, they may complete more than two modules. Applicants starting a module late in the afternoon should be advised that it must be completed by the normal closing time; unanswered questions will be treated as wrong answers. An applicant for a limited officer endorsement must complete the entire exam on consecutive days. All modules are graded separately. A minimum score of 70% is required to pass each module, except for the renewal exercise open book modules, which require 90% to pass.

REFERENCE MATERIAL

Engineering exam illustrations will be provided at the back of each exam module booklet. With the exception of providing the regulations, 46 CFR Parts 1-199 and 33 CFR Parts 1-199, no other reference materials are permitted except for the open book renewal exercise. Only non-programmable calculators are permitted.

EXAMINATION CYCLES

Subject to the requirements of paragraph 1 and 2, the examination cycle may begin on any workday, and at anytime during the day as designated by the REC.

RENEWAL EXERCISE

The renewal exercises for all limited engineering officer endorsements have been consolidated into one open book exercise.

QUESTIONS

Any questions regarding engineering endorsement or document examinations should be referred to the National Maritime Center, Examination Administration Branch, Engineering Team, at (304) 433-3711.

Chapter 2-Section 5

Reference Material

46 CFR Parts 10,11, & 12 Quick Index

46 CFR PART 10—MERCHANT MARINER CREDENTIAL

Section Contents

Subpart A—General

- § 10.107 Definitions in subchapter B.
- § 10.109 Classification of endorsements.

Subpart B—General Requirements for All Merchant Mariner Credentials

- § 10.223 Modification or removal of limitations or scope.
- § 10.225 Requirements for original merchant mariner credentials.
- § 10.227 Requirements for renewal.
- § 10.231 Requirements for raises of grade or new endorsements.
- § 10.239 Quick reference table for MMC requirements.

46 CFR 11—REQUIREMENTS FOR OFFICER ENDORSEMENTS

Section Contents

Subpart B—General Requirements for Officer Endorsements

- § 11.201 Eligibility for officer endorsements and STCW endorsements, general.
- § 11.202 STCW endorsements.
- § 11.205 Requirements for original officer endorsements and STCW endorsements.
- § 11.211 Creditable service and equivalents for officer endorsements.
- § 11.213 Sea service as a member of the Armed Forces of the United States and on vessels owned by the United States as qualifying experience.
- § 11.217 Examination procedures and denial of officer endorsements.

Subpart D—Professional Requirements for Deck Officers

See 11.401 – 11.497

Subpart E—Professional Requirements for Engineer Officer

- § 11.501 Grade and type of engineer endorsements issued.
- § 11.502 Additional requirements for engineer endorsements.
- § 11.503 Horsepower limitations.
- § 11.504 Application of deck service for limited engineer endorsements.
- § 11.505 Engineer officer structure.
- § 11.510 Service requirements for chief engineer of steam and/or motor vessels.
- § 11.512 Service requirements for first assistant engineer of steam and/or motor vessels.
- § 11.514 Service requirements for second assistant engineer of steam and/or motor vessels.
- § 11.516 Service requirements for third assistant engineer of steam and/or motor vessels.
- § 11.518 Service requirements for chief engineer (limited oceans) of steam and/or motor vessels.
- § 11.520 Service requirements for chief engineer (limited near coastal) of steam and/or motor vessels.
- § 11.522 Service requirements for assistant engineer (limited oceans)
- § 11.524 Service requirements for designated duty engineer of steam and/or motor vessels.
- § 11.530 Endorsements for engineers of uninspected fishing industry vessels.

- § 11.540 Endorsements for engineers of mobile offshore drilling units.
- § 11.542 Endorsement as chief engineer (MODU).
- § 11.544 Endorsement as assistant engineer (MODU).
- § 11.551 Endorsements for service on offshore supply vessels.
- § 11.553 Chief Engineer (OSV).
- § 11.555 Engineer (OSV).

Subpart G—Professional Requirements for Pilots

See 11.701-11.713

Subpart I—Subjects of Examinations and Practical Demonstrations of Competence

- § 11.901 General provisions.
- § 11.903 Licenses requiring examinations.
- § 11.910 Subjects for deck officer endorsements.
- § 11.920 Subjects for MODU endorsements.
- § 11.950 Subjects for engineer endorsements.

46 CFR 12—REQUIREMENTS FOR RATING ENDORSEMENTS:

Section Contents

Subpart 12.02—General Requirements for Certification

- § 12.02-11 General provisions respecting rating endorsements.
- § 12.02-17 Examination procedures and denial of rating endorsements.

Subpart 12.03—Approved and Accepted Training

- § 12.03-1 Coast Guard-accepted training other than approved courses.

Subpart 12.05—Able Seamen

- § 12.05-7 Service or training requirements.
- § 12.05-9 Examination and demonstration of ability.

Subpart 12.10—Lifeboatman

- § 12.10-1 Credentials required.
- § 12.10-3 General requirements.
- § 12.10-5 Examination and demonstration of ability.
- § 12.10-7 General provisions respecting an MMC or MMD endorsed as lifeboatman.
- § 12.10-9 Endorsement for proficiency in fast rescue boats.

Subpart 12.15—Qualified Member of the Engine Department

- § 12.15-7 Service or training requirements.
- § 12.15-9 Examination requirements.
- § 12.15-11 General provisions respecting an endorsement as qualified member of the engine department.
- § 12.15-13 Deck engine mechanic.
- § 12.15-15 Engineman.

975XX	Tankerman Assistant Liquefied Gases

Chapter 3-Section One

Oceans or Near Coastal Routes

SECTION ONE: Oceans or Near Coastal Routes

Ocean Routes

IAW 46CFR10.107 the term **OCEANS** means the waters seaward of the Boundary Lines as described in 46 CFR part 7. For the purposes of establishing sea service credit, the waters of the Inside Passage between Puget Sound and Cape Spencer, Alaska, are not considered oceans.

IAW 46CFR11.401(a) Any license or MMC endorsement for service as master or mate on ocean waters qualifies the mariner to serve in the same grade on any waters, subject to the limitations of the endorsement.

- Ocean Waters include Near Coastal waters.

Near Coastal Routes

IAW 46CFR10.107 the term **Near Coastal** means ocean waters not more than 200 miles offshore.

IAW 46CFR11.401 (b) A license or MMC endorsement issued for service as master or mate on near-coastal waters qualifies the mariner to serve in the same grade on near-coastal, Great Lakes, and inland waters, subject to the limitations of the endorsement.

IAW 46CFR11.401 License Endorsement Requirements

(g) In order to obtain a master or mate endorsement with a tonnage limit above 200 gross tons, or an endorsement for 200 gross tons or less with an ocean route, whether an original, raise in grade, or increase in the scope of the endorsement authority to a higher tonnage category, the applicant must successfully complete the following training and examination requirements:

- (1) Approved firefighting course;
- (2) Approved radar-observer course; and
- (3) Qualification as an able seaman unlimited or able seaman limited (able seaman special or able seaman offshore supply vessels satisfy the able seaman requirement for endorsements permitting service on vessels of 1,600 gross tons or less).

(h) Each applicant for a deck officer endorsement, which authorizes service on vessels above 1,600 gross tons on ocean or near-coastal waters, whether original or raise of grade, must pass a practical-signaling examination (flashing light). An applicant who fails in practical signaling, but passes every other part of the examination, may be issued an endorsement with a 1,600 gross ton limitation. The tonnage limitation can be removed upon successful completion of the signaling examination

Chapter 3-Section 2

Great Lakes & Inland or Inland Routes

SECTION TWO: Great Lakes & Inland or Inland Routes

Great Lakes and Inland Routes

IAW 46CFR10.107 the term Great Lakes means the Great Lakes and their connecting and tributary waters including the Calumet River as far as the Thomas J. O'Brien Lock and Controlling Works (between mile 326 and 327), the Chicago River as far as the east side of the Ashland Avenue Bridge (between mile 321 and 322), and the Saint Lawrence River as far east as the lower exit of Saint Lambert Lock. For purposes of requiring merchant mariner credentials with rating endorsements, the connecting and tributary waters are not part of the Great Lakes.

IAW 46CFR11.430 Any license or MMC endorsement issued for service on the Great Lakes and inland waters is valid on all of the inland waters of the United States as defined in this part.

- Great Lakes waters include Inland waters.
- MMC's endorsed for the Great Lakes read: "Great Lakes and Inland Waters"

Inland Routes

IAW 46CFR10.107 the term Inland means the navigable waters of the United States shoreward of the Boundary Lines as described in part 7 of this chapter, excluding the Great Lakes, and, for towing vessels, excluding the Western Rivers. For establishing credit for sea service, the waters of the Inside Passage between Puget Sound and Cape Spencer, Alaska, are inland waters.

IAW 46CFR11.430 Any license or MMC endorsement issued for service on inland waters is valid for the inland waters of the United States, excluding the Great Lakes. Licenses and MMC endorsements with either a Great Lakes and inland or an inland route are valid for service on the sheltered waters of the Inside Passage between Puget Sound and Cape Spencer, Alaska. As these licenses and MMC endorsements authorize service on waters seaward of the International Regulations for Preventing Collisions at Sea (COLREGS) demarcation line as defined in 33 CFR Part 80, the applicant must complete an examination on the COLREGS or the endorsement must exclude such waters.

- Applicants requesting Great Lakes and Inland or Inland officer endorsements are required to complete a Rules of the Road 066XX module covering Inland Rules of the Road. A geographic COLREGS limitation will be endorsed on the applicants MMD upon successful completion of this module.
- If the applicant wishes to remove the geographic COLREGS limitation they are required to complete a Rules of the Road module, 054XX, covering International and Inland Rules of the Road in lieu of the 066XX module.

Chapter 3-Section 3

River Routes

SECTION THREE: River Routes

River Routes

IAW 46CFR10.107 the term RIVERS means a river, canal, or other similar body of water designated as such by the Coast Guard.

Western Rivers Routes

IAW 46CFR10.107 the term Western Rivers means the Mississippi River, its tributaries, South Pass, and Southwest Pass, to the navigational demarcation lines dividing the high seas from harbors, rivers, and other inland waters of the United States, and the Port Allen-Morgan City Alternate Route, and that part of the Atchafalaya River above its junction with the Port Allen-Morgan City Alternate Route including the Old River and the Red River, and those waters specified in 33 CFR 89.25.

From the COMDTINST M16000.8B

Marine Safety Manual Volume Three

Page 10-6/7

F. River Licenses.

The 46 CFR Part 10 final rule on licensing of maritime personnel created several river licenses. This section supplements the basic structure which the regulations contain on these licenses.

1. Routes.

River licenses can be issued with three route designations; Western Rivers, Rivers other than Western Rivers, and Rivers.

2. License Examinations.

There are three different examinations for rivers licenses; 1) Master's license authorizing service on vessels of more than 200 gross tons, including 500, 1600, and any gross tons; 2) Mate's license authorizing service on vessels of more than 200 gross tons, and; 3) Master or Mate on vessels of not more than 200 gross tons. Tonnage should be determined using the qualifying service.

a. All three examinations will utilize the 30 question Rules of the Road module. Because Alaskan and other rivers are governed by the COLREGS, applicants for a Rivers route or a Rivers other than a Western Rivers route who are examined with the Inland Rules of the Road module will have the standard COLREGS exclusion placed on their license.

b. Master and Mate examinations will each have a General module appropriate for the level. All other modules utilized will be existing or new generic modules.

c. Routes will be determined by which generic navigation modules are taken. Applicants for a Western Rivers route will take the Western Rivers navigation problems module. Applicants for a Rivers other than Western Rivers route will take the navigation problems module based on the Columbia River which is similar in scope to the Western Rivers module. Applicants for a Rivers route will be required to take both navigation modules.

46CFR11.703 Route Familiarization Requirements

46CFR11.707 Examination Requirements

Rules of the Road:

Module 054XX is administered for routes requiring International & Inland Rules of the Road

Module 066XX is administered for routes requiring Inland Rules of the Road

Applicants requesting original officer endorsement as First Class Pilot on vessels NMT 1600 GRT **MUST** take all the modules listed above

Applicants requesting an extension of route or holding an MMC endorsement as Master or Mate authorized to serve on vessels of over 1600 GRT are **ONLY** required to take the Local Knowledge and Chart Sketch modules for the requested route.

Chart Plot for Applicants requesting Rivers Routes :

Module 074XX and 075XX are administered for River Routes

Module 074XX is administered for Rivers other Than Western Rivers

Module 075XX is administered for Western Rivers

Local Knowledge and Chart Sketch Modules: Will be maintained and administered by the Regional Exam Center in the local area. Questions, passing scores, reference materials and time limits are all established locally at the REC. Applicants should contact the REC for examination requirements for specific routes. REC's will keep completed Chart Sketches in Mariner files.

46CFR 11.711 Tonnage Requirements

Chapter 3-Section 6

Mobile Offshore Drilling Units

SECTION SIX:

Mobile Offshore Drilling Units

MODU

IAW 46CFR10.107 the term **Mobile Offshore Drilling Unit (MODU)** means a vessel capable of engaging in drilling operations for the exploration for or exploitation of sub-sea resources. MODU designs include the following:

(1) Bottom bearing units, which include:

(i) Self-elevating (or jack-up) units with moveable, bottom bearing legs capable of raising the hull above the surface of the sea; and

(ii) Submersible units of ship-shape, barge-type, or novel hull design, other than a self-elevating unit, intended for operating while bottom bearing.

(iii) Surface units with a ship-shape or barge-type displacement hull of single or multiple hull construction intended for operating in a floating condition, including semi-submersibles and drill ships.

IAW 46CFR 11.468 Officer endorsements for service on mobile offshore drilling units (MODUs) authorize service on units of any gross tons upon ocean waters while on location or while underway, as restricted on the endorsement, except when moving independently under their own power.

*** REQUIREMENT**

46CFR 12.059(c)

All applicants for an Able Seaman Endorsement must demonstrate knowledge and ability to make principal knots, bends, splices and hitches.

A total of ten knots must be successfully demonstrated within a 15 minute time limit. Four are required, six additional knots must be chosen from the list.

Applicants must successfully demonstrate seven of the ten knots and successfully demonstrate the whipping to successfully demonstrate proficiency.

*** ASSESSMENT NOTES**

1. Spliced line may not be reused.
2. The demonstration must be completed at a USCG approved facility/school.
3. A standard format Letter of Proficiency may be accepted in lieu of the marlinspike seamanship demonstration.

ABLE SEAMAN LETTER OF PROFICIENCY IN MARLINESPIKE SEAMANSHIP ASSESSMENT

Person Observing the Demonstration

1. Your assistance in administering the practical portion of the Able Seaman examination required under 46 CFR 12.05-9(c) is appreciated. Certification of the mariner's ability to demonstrate proficiency in performing the marlinspike skills listed in ESS 5-9 will enable the issuance of their Able Seaman's certification.
2. The demonstration of ability shall be witnessed by a designated examiner as part of an approved or accepted training course, a vessel Master or other officer licensed for service on vessels of over 200 gross registered tons, an appropriately trained Coast Guard Officer, or a responsible person authorized in writing by the Officer in Charge Marine Inspection.

To: Officer in Charge Marine Inspection (Regional Examination Center)

Subj: Certification of Performance of Practical Ability

This is to certify that I observed a successful demonstration of the applicant's proficiency, as indicated on the reverse, in the principal knots, bends, splices, and hitches in common use by:
